## GOING GOLD

When you are tried by fire, it purges you. Fire takes the uncleanness, weight, any waste, foreign matter, and sin that would be the dross or rubbish away, and brings forth pure gold. (James 1:2) "Count it all joy" When a trial is severe, it will bring you to your knees. You will think that no one else is being tried as much as you. When the trial is so hard that you do not know what to do, and you cannot sleep, then you shall come forth as gold. God knows the way that you should take. You are in a good place, when you do not know what to do, just look to God for the answer. During this fire, you will think your spirit man is dried up or empty. You will think there is no hope and everything has passed you by in life. Out of this experience, you will tell the story how God has delivered you. You will say, "Look what the Lord has done."

You will never find out about the easy times. Great victories and testimonies come from going through the fires and battles. Shadrach, Meshach, and Abednego, went through the fire. Don't forget about Moses and Daniel, they confronted great test and fires. Go back and read the scriptures. You will see there were not many easy times. You are in a good place when you do not know what to do. God knows and God is with you. "Are you gold yet?"
